PROJECT EXPERIENCE

✈️ Odyss Travel Company Web App | *June – July 2025*

A web application for travel companies to set up routes, manage vehicles, and handle user trip bookings. As part of the Odyss startup dev team, I contributed to building responsive, user-friendly interfaces using ReactJS and TailwindCSS.

Role: Frontend Developer

Stack: ReactJS, TailwindCSS

Highlights:

- Collaborated with backend developers to ensure seamless API integration.

- Built dynamic route and booking interfaces that improved user experience.
